

DataSummit 2024 — Speaker Program

San Francisco, CA · October 14-15, 2024

About DataSummit

DataSummit is an annual two-day conference for data and analytics leaders, held each year in San Francisco, California. The 2024 edition drew over 1,200 attendees across enterprise data teams, analytics vendors, and investors.

Keynote: Maria Chen, Nexora

Maria Chen, founder of Nexora, delivered the day-two keynote on October 15, 2024, titled 'Analytics Without the Analyst.' Chen discussed how the Nexora Insight Platform has evolved since its 2022 launch, and previewed forecasting features the company gained through its March 2024 acquisition of Nexora Analytics.

During the Q&A, Chen confirmed Nexora's new partnership with CloudScale Systems, announced the previous month, and said the integration would ship to CloudScale customers in early 2025.

Session Table

Time	Session	Speaker
9:00 AM	Opening Remarks	DataSummit Organizers
10:30 AM	Analytics Without the Analyst (Keynote)	Maria Chen, Nexora
1:00 PM	Scaling Data Teams	CloudScale Systems panel
3:30 PM	Forecasting at Mid-Market Scale	Nexora engineering team

Venue

All sessions were held at the Moscone Center in San Francisco, California, the same venue DataSummit has used since 2021.
